Introduction

Thank you for taking the time to participate in this consultation.

Through the Grenfell Memory Project, London Fire Brigade (LFB) seeks to create a meaningful and lasting legacy to honour the 72 lives lost in the Grenfell Tower fire, while supporting collective healing and recovery within the community.

The Project forms part of London Fire Brigade's commitment to a Restorative Justice process under a Civil Settlement Agreement, which recognises the impact of the Grenfell Tower fire on families of the deceased, survivors, North Kensington and Grenfell communities. It aims to proactively rebuild trust and repair relationships.

This consultation is a requirement of the Civil Settlement Agreement in 2023 and reflects LFB's commitment that the Grenfell community must be fully consulted on the scope and development of the Memory Project initiatives, as the involvement and support of local people are essential to the Project's success.

The Grenfell Memory Project proposals set out in this questionnaire have been developed through extensive engagement with Alternative Dispute Resolution (ADR) claimants, including close family members of the deceased, survivors, and residents.

A total of 329 people participated in the pre-consultation engagement last year. Their feedback was summarised in an independent pre-consultation engagement report which has informed the development of the Grenfell Memory Project proposals. We are now seeking views on these proposals from the North Kensington and Grenfell communities (including close family members of the deceased, survivors, residents and friends).

The Grenfell Tower fire has had a profound and traumatic impact on close families of the deceased, survivors, local residents, and the wider North Kensington community. Despite the passage of time, its effects continue to be felt — not only by those directly affected, but also by new residents and others who have moved into the area since the tragedy.

The purpose of this consultation is to:

- understand whether you support these proposals
- identify what you like or where you have concerns about them
- gather suggestions on what needs to change, improve or be reconsidered.

The total funding available is **£8.25 million** which is proposed to be spent over **5 years**.

PROJECT PROPOSAL 3

Outreach programme to provide access to fire safety training and careers

A five-year outreach programme supporting people in the North Kensington and Grenfell communities who are interested in careers in fire safety. This will be an annual programme focused on promoting awareness and opportunities, delivering targeted workshops, and providing funding for a relevant fire safety qualification.

The outreach activities aim to raise awareness of, and provide information, guidance, and support for career opportunities in fire safety and the qualifications needed to pursue them. Each year, 12 people will be able to take part in a series of workshops (6) run by experienced fire safety professionals from London Fire Brigade.

The workshop sessions will provide practical advice, career insights and support to apply for a Level 3 Fire Safety Certificate delivered by external training providers. These sessions will also provide support and advice for applications for entry level fire safety roles within London Fire Brigade and other organisations.

The costs of this support and the Level 3 Fire Safety Certificate qualification will be fully funded by the Grenfell Memory Project.

It is anticipated that this programme will improve the ability of members of the North Kensington and Grenfell communities affected by the events of the Grenfell Tower fire to access a fire safety course and apply for fire safety careers within London Fire Brigade and other organisations.
